OHIO DEPARTMENT OF
TRANSPORTATION

Statewide Policy Alignment to Enable Coordination & Enhance Mobility

14 State Agencies are working to align policies that will make transportation coordination possible.

Driver Standards
Vehicle Standards
Eligibility & Usage Policies
Costing Standards

Transportation Coordination

Coordination Plans

ODOT will support development and updating of local Public Transit-Human Services Transportation Coordination Plans

Regional Coordination Plans

ODOT will pilot the development of Regional Coordination Plans that recognize inter-county transportation needs and priorities

Technology-enhanced scheduling and dispatching systems

will be funded for 35 rural transportation providers. These web based, shared license systems will allow use by both public and social service transportation providers. Broadband improvements in remote areas will insure functionality.

Mobility Transformation

Goals

- Make it easier to match people with the transportation services they need
- Improve the health of Ohioans by ensuring that they have transportation to needed medical appointments and services.
- Use transportation resources more efficiently and consistently throughout the state
- Reduce redundancy and fill gaps where service is needed

Transportation Prioritization

Non-Emergency Medical Transportation

Ohio Medicaid spends about
\$71 million

per year on county administered non-emergency medical transportation (county NEMT) for Medicaid customers. Currently services are delivered differently in each of Ohio's 88 counties.

In FY 2019, Ohio Medicaid will implement statewide coordination of NEMT service by establishing regional brokerages to provide person-centered NEMT transportation services for Medicaid clients.
