Topic of poster – Please explain in four sentences or less the challenge presented, the method of how the challenge was approached and solved, and how the solution is working.

The goal of this program was to increase accessibility to medical, nutrition, personal and social destinations. Through a collaborative effort with three (3) rural transportation service providers, JMMF established a replicable model that encompassed traditional and nontraditional streams of thoughts on how senior transportation can be inaugurated and enhanced. As a result, we have increased ridership, membership, and decreased the negative incidences from previous providers.

I agree to attend the trade fair reception and Wednesday trade show and stand at my poster, make mini-presentations, and converse with EXPO conference attendees about the poster.

I agree that that CTAA can use the poster image with attribution to the creator and his or her employer.
