Mobilizing Transportation to Support COVID-19 Vaccination Efforts: Practical Examples, Part 3
Your moderator for today

Amy Conrick
Director, National Center for Mobility Management

NCMM is a technical assistance center funded by the Federal Transit Administration

We work daily to promote customer-centered mobility strategies to advance good health, economic vitality, self-sufficiency, and community.
As you prepare to join us . . . a few reminders

- This webinar is being recorded. The recording, slides, and a transcript will be posted at nc4mm.org/covid-19-resource-center/
- All participants are joining in listen-only mode.
- Audience questions are encouraged. Please use the Q&A box to post any questions you have.
- You may enable the captioning feature for this webinar by clicking on the option at the bottom of your screen.
COVID-19 Resource Center

Webinar Series:

Mobilizing Transit and Public Health Partnerships for COVID-19 Vaccinations

Join NCMM for 45-minute conversations featuring practical examples of how public transit is collaborating with public health to ensure Americans have access to the COVID-19 vaccine. On March 24th, we will be joined by NCDOT and VPTA to talk about their efforts. On April 7th, we will be joined by Flint MTA in Flint, Michigan and Nashua Transit system in Nashua, New Hampshire.

Novel Coronavirus (COVID-19)

The world is experiencing an expanding outbreak of respiratory illness caused by a novel coronavirus (COVID-19). FTA encourages transit agencies to be informed and prepared.

American Rescue Plan Act of 2021

The American Rescue Plan Act of 2021, which President Biden signed on March 11, 2021, includes $30.5 billion in federal funding to support the nation’s public transportation systems as they continue to respond to the COVID-19 pandemic and support the President’s call to vaccinate the U.S. population. Learn more

Coronavirus Response and Relief Supplemental Appropriations Act of 2021

The Coronavirus Response and Relief Supplemental Appropriations Act of 2021 (CRRSAA) includes $900 billion in supplemental appropriations for COVID-19 relief, $14 billion of which will be allocated to support the transit industry during the COVID-19 public health emergency. CRRSAA became law on December 27, 2020. Learn more

Coronavirus Aid, Relief, and Economic Security (CARES) Act

On Friday, March 27, the Coronavirus Aid, Relief, and Economic Security (CARES) Act was signed into law. FTA is allocating $25 billion to recipients of urbanized area and rural area formula funds. Learn more
Key Things to Know About COVID-19 Vaccines

Updated Mar. 13, 2021

Key Things to Know

- COVID-19 vaccines are safe and effective.
- You may have side effects after vaccination, but these are normal.
- It typically takes two weeks after you are fully vaccinated for the body to build protection (immunity) against the virus that causes COVID-19.
- Vaccines will become widely available, in the coming months. Find a COVID-19 vaccine.
- People who have been fully vaccinated can start to do some things that they had stopped doing because of the pandemic.

What We are Still Learning

- We are still learning how well vaccines prevent you from spreading the virus that causes COVID-19 to others, even if you do not have symptoms.
- We’re also still learning how long COVID-19 vaccines protect people.
- We are still learning how many people have to be vaccinated against COVID-19 before most people can be considered protected (population immunity).
- We are still learning how effective the vaccines are against new variants of the virus that causes COVID-19.

Effectiveness

What We Know
