

# HealthTran

## Transportation Partners

### Preventative Health Transport

Texas County Memorial Hospital

LICKING BRIDGE BUILDERS, INC.  
SENIOR CENTER

CITY OF HOUSTON TRANSIT

## Who We Are

HealthTran is a pilot program that links public/private transit to health care. The collaborative grant was written for the Missouri Public Transit Association & Missouri Rural Health Association.

## The Goal

Improve long-term health outcomes by reducing barriers of transportation.  
Gather quality data that supports the theory that transportation does, in fact, improve patient health outcomes.  
Create a replicable program that can be expanded throughout rural Missouri.

Missouri Foundation for Health

FUNDED IN PART BY MO FOUNDATION FOR HEALTH.  
The MFH is a philanthropic organization whose vision is to improve the health of the people in the communities it serves.

## MEDICAL TRANSPORTATION PROGRAM

Don't let the lack of a ride keep you from better health.

# How to Get a Ride ?

## Do You Qualify?

ALL - You Qualify!

ASK your health provider for a HealthTran Referral when you make your appointment.

- Your Health Provider will work with you to link your family medical appointments together. If just you, that is OK too.
- If going long distance, your appointment may need to be scheduled for specific days.
- Provide your health provider with needed information & sign a release to share your trip information with the HealthTran Coordinator (HTC). Your HealthTran Coordinator will call to complete a short assessment on your first ride only.

## Have a Great Ride!

**HealthTran is NOT a subsidy.**

Riders who do not take responsibility to cancel rides prior to the day of pick-up can lose the transportation benefit.

Do you live within the HealthTran region?

### HealthTran Region

- |              |            |
|--------------|------------|
| 1. Christian | 6. Shannon |
| 2. Douglas   | 7. Taney   |
| 3. Howell    | 8. Texas   |
| 4. Oregon    | 9. Webster |
| 5. Ozark     | 10. Wright |

Do You Need a Ride for a Medical Need ?

Don't let the barrier of transportation keep you from better health. HealthTran helps Medicare, Uninsured, and others who are unable to access Medicaid (Logisticare) Transportation. There is NO income guidelines or health insurance plan requirements.

There is NO Charge to the patient for the ride during the pilot program.

Is your doctor a HealthTran Partner?
